WHISPER CREEK

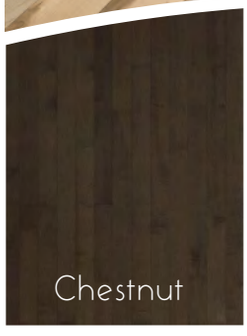

WHISPER CREEK
MAPLE BISTRO GRADE
SOLID 3 1/4" x 3/4"

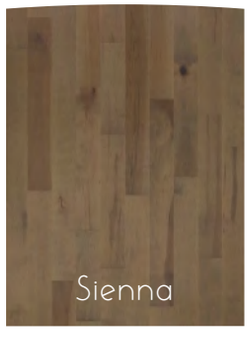

This Solid Maple flooring, available in a natural finish and three stains, is a Bistro grade, a character grade hardwood known for its rustic appearance. Featuring a durable Aluminum Oxide coating cured with UV light, the product has a matte finish and comes with a 15-year warranty. As a lower grade item, it may show some character through occasional splits in boards, although all knots are filled for a refined look.

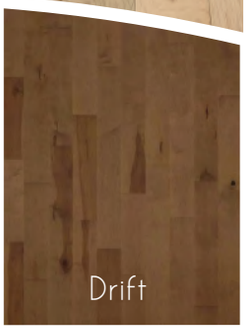

The Bistro grade offers a rustic charm, with slightly shorter average board lengths compared to premium offerings. Its solid wood construction ensures durability, but it is not suitable for installation over radiant heat systems.

To ensure the longevity and stability of this flooring, maintaining an indoor temperature between 60-and-80-degrees Fahrenheit is crucial. Proper care will help preserve the flooring's natural beauty over time, making it a reliable choice for residential spaces.
